

Hi everyone,

We are a group of Austrian students who are very much looking forward to going to Carlsbad. We will be in Carlsbad from April 20-May 4 2023.

Most of us are 16 years old and we are in our third year of higher technical school. We normally have a language trip in the third year, but in the last 2 years it had to be canceled because of COVID.

So this year, everyone was very keen to travel again and get to know new people. This is why our group is very big and because of the technical focus of our school, there are lots of boys. There will be 53 boys and 7 girls in our group, so we need lots of hosts.

We hope you are interested in getting to know someone from another continent and spending your time with them. We are excited to go to school with you and spend our free time together. For almost everyone it's their first time in the USA and we are overjoyed that our dream will come true.

By the way, three of our teachers will also come along and it would be great if someone could host them too. (They are really nice. 😊)

If you are interested in hosting, please fill out the linked google form [Austrian Student Host Application](#) Questions? Please contact Eloy Casteneda or Andrea Schuck.

We hope to meet you soon!

The Austrians
